NOMAPACK®

PROTECTIVE SOLUTION
AND SHOCK ABSORPTION

NOMAPACK® offers a wide range of standard products along with many special shapes, and special customised solutions can also be supplied to customers at short notice. NOMAPACK® is indestructible and offers reliable protection for your product against damp, temperature fluctuations and mechanical factors.

NOMAPACK® profiles fits any shape of product, with no need for fixing aids, and they are as light as a feather, which means they save on both space and transport costs. NOMAPACK® is made from environmentally responsible materials, repels dirt and is washable, making it very hygienic. NOMAPACK® contains recycled materials and is also recyclable, meaning it makes a valuable contribution in terms of environmental protection and sustainability.

APPLICATIONS

HIGH PERFORMANCE FOAM MATERIALS ARE USED IN ALL SECTORS

NMC foam products provide reliable protection and can be removed completely afterwards. In addition, our solutions can be integrated easily in existing assembly line productions. Therefore: maximum protection and guaranteed product quality from manufacture to delivery to the end customer.

FURNISHING INDUSTRY
Living comfort according
to your needs

TRANSPORT
For an all-round safe transport and
comfortable driving experience

CIVIL ENGINEERING
Omnipresent in construction and
underground engineering

OFFSHORE INDUSTRY
Safety for people and sea

WINDOW INDUSTRY
Energy efficient windows secured
at the construction site

SPORT & LEISURE
Fun and safe activities

PERSONAL PROTECTION
Protected in all circumstances

CONSUMER ELECTRONICS
Safe transport of valuable
components

MEDICAL ENGINEERING
Comfort and safety in the medical
branch

FUNCTIONS
INSULATING
Insulation for all purpose

PROTECTING
For transport, processing and storage

HIGH PERFORMANCE FOAM MATERIALS WITH MULTI-FACETED PROPERTIES

SOUND PROOFING
Noise prevention and noise protection

UPHOLSTERY
Comfort thanks to good adaptability

SEALING
Sealing joints

FLOATING
Usable on all waters

LIGHTWEIGHT
A light permanent structure

WE TAKE RESPONSIBILITY

SUSTAINABILITY AT NMC

Economic, socially responsible and environmentally conscious behavior go hand in hand here at NMC. These are the three principles that form what is called the „three-pillar model" of sustainable development. As a family business, we want to ensure that we can handle whatever the future throws at us, and we are relying on tried and tested values and forward-looking thinking in order to maintain our strong economic position on the road ahead.

We are equally mindful of our social responsibility vis-à-vis our customers, our staff and our shareholders. With future generations uppermost in our thoughts, our focus is very much on the needs and wishes of all our stakeholders. We are helping towards securing sustainable mitigation of climate change and environmental protection at several levels simultaneously.

Our record shows that we have consistently striven to improve our products: as long ago as 1988, we first switched to CFC-free production and then shifted our processes away from HCFCs. This made us pioneers in our industry.

NMC'S COMMITMENT TO CLIMATE PROTECTION

› Energy from our own photovoltaic system and 100 % green energy
› Nearly 100 % recycling of production waste
› Closed water circuits minimize consumption
› ISO 14001 certification – the international standard for environmental management systems
› Participation in Operation CleanSweep®

PROFILES THAT CAN PROTECT PRODUCTS AS WELL AS THE CLIMATE

If you want reliable protection against transport damage for your products, you cannot do without solutions made of plastic. And thanks to us, you don't have to. At NMC, we manufacture foam profiles in such a way that they are superior to solutions made of cardboard and other materials, not only technically but ecologically as well.

Furthermore, we manufacture strictly in accordance with the closed-loop principle. Almost 100 % of internal plastic waste is recycled back into production.

Our NOMAPACK® profiles are completely recyclable, and in addition, labelled products already consist of 30 % or more recycled material. These therefore already meet the European standards that will come into force from 2025.

This makes NMC the industry leader in sustainability.

In order to be as transparent as possible, boxes containing certified products will bear the following Polycert seal. This way, everyone can see at first glance that climate protection is not just an empty word.

NOMAPACK® U

THE EDGE PROTECTOR FOR EVERY APPLICATION

PROTECTED AND UNIVERSALLY USABLE

The NOMAPACK® U range consists of effective protection profiles for edges and curves of all types. Thanks to the various dimensions and thicknesses and thanks to the possibility to develop bespoke profiles, you'll always find suitable protection for your product with NOMAPACK® U.

› Edge protection from 2 to 160 mm
› Easy fitting Multishape version
› Patented design

PRODUCT FEATURES:

› PE-LD foam
› Supplied as lengths or coils
› Water absorption < 1 – vol.% after 40 days
› Recyclable
› The tolerance of the length of the coils is up to a maximum of ±2 %

APPLICATIONS:

› Tables and worktops
› Shelves, storage units and other furniture parts
› Mirrors, glass plates, ceramic
› Works of art, framed pictures, etc.

NOMAPACK®WS

BREAK-PROOF FROM A TO B

THE EDGE PROTECTOR FOR GLASS, SHEET METAL AND NARROW EDGES

NOMAPACK® WS is the innovative transport protector for windscreens and glass products. The additional inner hole reinforcement prevents sharp edges from piercing the profile and thus offers perfect protection for your product. An extensive range of tool accessories facilitate the processing of the NOMAPACK® WS profile.

› Patented glass edge protection
› Unique profiles, with inside reinforcement
› Efficient protection against scratches and breaks

PRODUCT FEATURES:

› PE-LD foam
› Supplied as coils
› Water absorption < 1 – vol.% after 40 days
› Recyclable
› The tolerance of the length of the coils is
   up to a maximum of ±2 %

APPLICATIONS:

› Glass edges
› Windscreens
› Heavy and sharp goods

NOMAPACK® WS 33X26 BC/CBC

Specially designed profile for windscreens without a rubber lip and for thicknesses from 3 to 6 mm. Available with or without inside reinforcement. The profile is supplied on coil for self-lengthening.

NOMAPACK® PAD

TRANSPORT CUSHION WITH BIG IMPACT

NOMAPACK® PAD is a spacer available in various dimensions with removable or permanent glue. It is a spacer pad for separating sensitive goods or fixing them in place. The pads are pre-punched so that the desired length can be cut off simply and cleanly.
›   Available with or without adhesive in various lengths and thicknesses

PRODUCT FEATURES:
›   PE-LD foam
›   Supplied as lengths
›   Water absorption < 1 – vol.% after 40 days
›   Recyclable

APPLICATIONS:
›   Cushioning
›   Spacing
›   Fixation

NOMAPACK® PAD

The spacer profile with removable (HMR) or permanent (HMP) adhesive. It has a good compression set.

NOMAPACK® O

THE ALL-ROUND PROTECTION

NOMAPACK® O offers an extensive selection of round profiles in various diameters and wall thicknesses, which have been specially developed for the protection of round bodies or elongated items.

› Adaptable to most round bodies
› Special and total protection for sensitive items

PRODUCT FEATURES:

› PE-LD foam
› Density from 20 kg/m³ to 35 kg/m³
› Supplied as lengths
› Water absorption < 1 – vol.% after 40 days
› Recyclable

APPLICATIONS:

› Pieces of furniture
› Bicycle frames
› Exercise machines

NOMAPACK® SYSTEM

THE FRAME FOR SENSITIVE GOODS

NOMAPACK® System, the efficient transport protection for sensitive goods. Thanks to its directly extruded, specially developed L-shape with integrated holes, it offers ideal protection against impacts and vibration and is easy to process into a shock absorbing frame.

› Outstanding protection against shocks and vibrations
› Tailor-made, adaptable and customer-oriented solutions

PRODUCT FEATURES:

› PE-LD foam
› Density from 24 kg/m³ to 34 kg/m³
› Supplied as lengths
› Water absorption < 1 – vol.% after 40 days
› Recyclable
› Cushioning curves avalaible on demand

APPLICATIONS:

› High-tech products
› Medical devices

NOMA® PROTECT

LONG-LASTING PROTECTION IN EVERYDAY USE

Whether impact protection profiles or co-extruded round foams, the diverse products of NOMA® PROTECT prevent shocks and injuries by offering numerous application possibilities for the protection of people and goods.

NOMA® PROTECT TUFF PAD

THE LONG TERM PROTECTION

NOMA® PROTECT Tuff Pad are coextruded round foams with a reinforced outer skin which offers various applications. Ideal to protect our kids while playing and climbing on playgrounds, trampolines or other game areas. NOMA® PROTECT Tuff Pad are always there to prevent injuries and crushes. They cover the complete metallic structure and provide a long term protection.

PRODUCT FEATURES:

› PE-LD foam / Outer skin PE-LD
› Supplied as lengths
› Water absorption < 1 – vol.% after 40 days
› Recyclable
› Relatively UV resistant
› Conform with norm EN 71-3
› Pre-slit for easy use
› Other colours available on request
› Washable

APPLICATIONS:

› Playgrounds, kids playing areas and climbing frames
› Scaffolding
› Horse trailer – bar coating
› Ski areas/ski lifts
› Diverse

NOMA® PROTECT TEMPORARY PROTECTION

THE SHORT TERM PROTECTION

NOMA® PROTECT TEMPORARY Protection 114 x 13/2 m is a solution specially designed to protect door frames and edges whilst construction, renovation or move-around,... Thanks to its flexibility, this pre-slit profile can be easily fixed.

PRODUCT FEATURES:

› PE-LD foam
› Supplied as lengths
› Water absorption < 1 – vol. % after 40 days
› Recyclable
› Easy to fix

APPLICATIONS:

› Adheres thanks to its natural clamping force and can be reused many times
› Protects punctually and prevents from moving damages
› Can be used on any standard door frame
› Is available in other sizes and colors (on request)

NOMA® PROTECT TEMPORARY PROTECTION 114X13/2 M

The easy to fix protection for door and window frames.

NOMA® PROTECT WARNING PROFILES

NOMA® PROTECT WARNING PROFILES effectively prevent dangers thanks to their striking signal color and provide reliable impact protection through their flexibility. The high-performance adhesive used keeps the profile in place even under difficult conditions.

PRODUCT FEATURES:

› Flexible PU foam
› Permanent adhesive
› Very good signalisation effect
› Easy to apply to almost all surfaces (free from dust and grease)
› Silicone-free
› Temperature resistant
› Fire performance:
  Euroclass E (EN 13501-1)
› Available in lengths of 1 m or on request in 2 m lengths

APPLICATIONS:

› Edge protector
› Prevention of impact injuries at shelves and corners
› Production area

NOMAFOAM®

Your foam specialist with a wide range of standard products and well thought out customer-specific solutions. We use our know-how to provide a bespoke, individual and sustainable solution for all your foam applications.

PROCESSING

Our core skill lies in the development, production and international marketing of technical foams. We have mastered the required technological methods in order to process raw materials and combine them in a complex and precise production process.

Our products' varied range of applications can be customized by means of additional processing. Countless techniques and options are available for further improving products during or following the production process. Naturally we work closely with our customers to collectively devise the best possible solution.

EXTRUSION

Extrusion is the ability to create technical ambitious foam profiles; cross-linked or non-cross-linked sheets and rolls for both standard and custom designed specifications. Thanks to many years of experience, we are able to combine and optimise the whole process and production chain. Various densities, colours, tailor made profiles and foils are also available upon request. Coextrusion is a production process of foam in which two or more compatible feed materials are merged together. Foam profiles can be coated with an additional layer of non foamed material in various colours or they can be re-inforced with an additional coating to increase for example their mechanical or UV resistance.

LAMINATING

Lamination is the technique of manufacturing a material in multiple layers, so that the composite material achieves improved strength, sound insulation, appearance or other properties. Whether it will be foam on foam or semi-finished material lamination, high emissivity aluminum foil or hook and loop fastener – there are many possibilities.

THERMOFORMING

Thermoforming is a manufacturing process where a foam product is heated and formed to a specific shape in a mould and finally trimmed to create a finished product. A wide range of extremely complex design criteria can be met and even three dimensional products can be realized.

CONVERSION

ADHESIVE

We are able to apply different types of adhesives to join materials together; either with a hot melt or an adhesive tape. The adhesion can be permanent or removable, adapted to a specific temperature range. We offer a great choice of possibilities.

CUTTING

Extruded profiles or foils and sheets could be upgraded by additional mechanical process like cutting, milling or stamping. According to customer requirement they can be for example, equipped with special cuts to make them more flexible and elastic. Foam profiles can be finished partially cut to simplify handling and avoid waste material.

NOMATEC®

PERFORMANCE UPGRADE FOR YOUR PRODUCTS

Our manufacturing processes enable us to offer custom-made, technically advanced components for your finished products or specific applications. Our engineers will work alongside your experts to deliver the perfect foam solution customised to your individual requirements.

CONVERTING

THE RIGHT FOAM BENEFIT FOR YOU

We will work together to develop innovative, customer-oriented products. From the smallest order to the largest bulk order, we guarantee flawless service. By using the most versatile foam materials in the widest array of versions, along with our processing options and possible finishing processes, we can manufacture high-value, highly specific products to your requirements.

To help you bring your project to fruition, please feel free to contact us without obligation or find us on www.nmc-nomafoam.com.
